Tiggy Johnson

‘Tiggy’s is a new voice with a refreshingly domestic bent. From controlled crying and the quiet relief of a cup of tea, to pregnancy tests gone wrong; from neighbourly suspicion, to the suspicion that can tear relationships apart, Tiggy is writing about the everyday, the things we know, and, most importantly, the things we know we should know better. It is energising to read a writer who understands the importance of life’s details, and who celebrates the small moments of decision and indecision that take us from day’s beginning to day’s end.’
